

DESCRIPTION:

Polyether-Polyurethane vacuum hose with rigid PVC helix, for aspiration – discharge of dust and particles.

PROPERTIES AND APPLICATIONS:

Seeding machines hose.

Suction and transport of abrasive particles, granules, grains, seeds, waste dust, in agricultural field, pharmaceutical and plastic industry. Smooth bore, excellent flexibility and solid construction. Good resistance to hydrolysis, microbes and abrasion.

MATERIAL:

Polyether-Polyurethane, rigid PVC helix

COLOR:

Transparent with blue PVC helix

WORK TEMPERATURE:

-30°C up to + 80°C

PACKAGING:

Coils of 20m

OTHER DIAMETERS ON REQUEST

AGRICULTURE INDUSTRY CONSTRUCTION
